Summary

As a teacher and freelancer, I combine my passion for web development with my experience in education, creating digital solutions that are innovative, efficient, and secure. I have a bachelor's degree in computer science from Faculdade Pitagoras, which has given me a solid foundation in coding, databases, and object-oriented programming.

At the Maranhão State Institute of Education, Science, and Technology (IEMA), I teach web development skills to young learners, focusing on JavaScript and its frameworks, such as Next.js, TypeScript, and React. I also work on various freelance projects, showcasing my proficiency with these technologies and applying a pragmatic approach to problem-solving and innovation. I am committed to crafting exceptional digital experiences that meet the needs and expectations of users and clients.
